KL-0167-15 A

**Application example:**

**Scope of delivery: KL-0167-15 A**

**KL-0167-15 A Universal Wrench**  
for Inner Track Rod Joint Ø30-Ø43 mm

Universally suitable for all the inner track rod joints with a spherical head-Ø of from 30 mm to 43 mm.

THE ideal tool for Mercedes Sprinter, VW Crafter (Ø43 mm).

**Field of Application**

This wrench allows the quick and easy removal and installation of the specified inner track rod joints to be performed without the need for removing the complete steering system from the vehicle.

The tool stands out for its special design, the exchangeable roller inserts equipped with high-grade metal rollers and steel cage, allowing for a wide range of applications. Working range from 30 mm to 43 mm.

**Advantages**

- Universal tool due to its very small outer diameter and large working range from 30 mm to 43 mm.
- Saves a lot of time and money as the risk of damage to the spherical head of the track rod is eliminated.
- High-grade metal rollers and steel cage ensure long service life of the tool.
- Exchangeable roller inserts.
- All components are separately available as spare parts.

**Technical Data**

Length: .....480 mm

Drive: ..... 1/2" □

**Warnings and Notes**

- Any work on vehicles should only be performed by qualified specialist personnel observing and complying with the directions, provisions, and safety regulations specified by the vehicle manufacturer.
- Only the vehicle manufacturer's data apply to any work on the vehicle.
- All specific vehicle data stated herein are supplied under reserve and without commitment.
