INSTRUCTION OVERVIEW

This overview shows all the instructions associated with the Premium wheel bearing package. Depending on the special tool and application, the corresponding instructions must be **read and understood before use!**

KL-0039-.. - Universal wheel bearing tool series

Universal for pressing out and in of standard wheel bearings and wheel hubs.

KL-0040-.. / KL-0215-.. Hydraulic drive parts and accessories

For hydraulically driving GEDORE Automotive special tools.

KL-0049-31

Impact extractor 4.8kg

For pulling out wheel hubs, stub axles, cardan shafts brake drums etc.

KL-0174-.. Wheel hub or wheel bearing puller series

Universal for pulling out wheel hubs.

SAFETY INSTRUCTIONS AND REGULATIONS

- ▶ Read and understand this product information **before using** the special tool, as it serves to familiarise you with the special tool and thus ensures **safe use!**
- ▶ Use the special tool **as intended** and **always** carry out maintenance and repair work in compliance with the regulations on occupational safety and accident prevention as well as the vehicle manufacturer's instructions!
- ▶ **Before each use**, check the special tool **carefully** for damage, loose parts, or unauthorised modifications. **Never** use it if you notice any such deficiencies!
- ▶ **Before each use**, check the moving parts on the **special tool** for dirt, if necessary clean and lubricate it **exclusively** with molybdenum disulphide paste, for example **KL-0014-0030!**
- ▶ **Always** wear your personal protective equipment, e.g. safety goggles, protective gloves, safety shoes, if necessary!
- ▶ Interrupt your work **immediately** if you are unsure about using the special tool, and contact **GEDORE Automotive GmbH if necessary!**
- ▶ Dispose of the special tool and its packaging material in an environmentally compatible way in accordance with the legal requirements. If necessary, ask your local authorities or **GEDORE Automotive GmbH** about environmentally friendly disposal options!
